Injuries can happen at work, home, while on the road, or on the playing field. No injury comes at a convenient time, but now you can receive prompt, expert treatment for your orthopedic injury in a more comfortable and less expensive setting than an emergency room. When an injury happens receiving prompt care can make all the difference. Our team of orthopedic professionals will provide the care you need to help you recover.

Staffed with experienced certified orthopedic Physician Assistants who are backed by our team of fellowship-trained surgeons, you will get the prompt care you need for an unexpected injury, sprain, strain or broken bone.

## ORTHOPEDIC PROMPT CARE treats:

- Work related injuries
- Auto related injuries
- School and sports injuries
- Sprains and strains
- Closed fractures
- Joint pain
- Back or neck pain
- Minor orthopedic injuries

*Services rendered at Orthopedic Prompt Care will follow Florida State Worker's Compensation reimbursement*

*For patients 15 years of age and older*

**Injuries can't wait .... neither should you**
